Designed by Bellini. Available in five vibrant shades, this contemporary cut-away chair will inject a burst of colour and personality into any office environment. Mix and match the colours to make your own bold design statement.

CT 390

Designed by Chen. With soft lines and moulded curves, this chair is an elegant and ergonomic solution for office seating. Define your space and choose a contemporary colour to reflect your own creativity.

SD 012

Designed by Dienes. Create a sleek professional layout with these chairs. With their clean lines and minimalist form, they work best when lined up in multiple configurations, such as in a conference or seminar setting.

CT 397

ViDA is one of the newest seating ranges from FINEST that showcases contemporary European design. Included are designs from the internationally renowned Claudio Bellini studio, Enrique Martí, Reinhard Dienes and Chen Zhiyi.

A highly versatile collection, it incorporates seating styles to suit a range of environments including the office, conference settings and lounge areas. The ViDA range represents both a stylish and functional addition to the modern office landscape.

CT 397 designed by Martí. Available in white, grey and orange, this informal chair is an excellent choice for lounge or break-out areas. Both functional and stylish, the organic shape and cut-out panels add an aesthetic focal point to a room.
